

GENDER PAY GAP REPORT 2021

As a public sector organisation who employs over 250 employees Tandridge Learning Trust (TLT) has a duty to report on its gender pay gap as per the Equality Act 2010 and equality regulations. The Equality and Human Rights Commission defines the gender pay gap as a measure of the difference between men’s and women’s average earnings across an organisation.

The legislation states that specific key metrics should be highlighted, these are:

1. the difference in the mean pay of full-pay men and women, expressed as a percentage;
2. the difference in the median pay of full-pay men and women, expressed as a percentage;
3. the difference in mean bonus pay of men and women, expressed as a percentage;
4. the difference in median bonus pay of men and women, expressed as a percentage;
5. the proportion of men and women who received bonus pay; and
6. the proportion of full-pay men and women in each of four quartile pay bands.

This is the fourth year that TLT has reported their gender pay gap data. As a bonus scheme was not in place we will only report data on key metrics 1, 2 and 6 from the required list above.

TLT is an organisation employing over 400 staff (headcount) with significantly more women (83.5%) employed than men (16.5%). For TLT, the mean and median hourly rates for women are lower than male employees by the following percentages:

The figures in brackets are for 2020 showing that the pay differential averages for women have increased for the Trust. Despite having more women in senior positions, the average pay differentials for male and female employees across all posts has increased. The Trust therefore recognises that there is further work it needs to undertake to address this.

The proportion of males and females in each quartile is as follows:

Quartile	Males	Females
Lower	5.0(10.1)	95.0(89.9)
Lower Middle	10.0(11.1)	90.0(88.9)
Upper Middle	21.0(19.2)	79.0(80.8)
Upper	30.0(29.6)	70.0(70.4)

Over the four years of reporting, the percentage of the female workforce employed by the Trust has increased from 78% in 2018 to 84% in 2021. The Trust now employ a higher percentage of women and the statistics are indicating that increased female employment has been to lower quartile roles.

The statistics are high level general indicators which are affected by workforce distribution and reflects the workforce composition. On further analysis, of the percentage of women employed, 50% are employed in the primary schools and almost 66% are employed in support roles across all schools. Both areas of employment are more likely to be lower paid compared to both a secondary school and compared to teaching roles. In TLT primary schools in 2021, most of the head teachers and senior leadership roles are filled by women, whereas in the secondary school the senior management and leadership positions are predominantly filled by men. However, the senior Trust roles are predominantly filled by women.

The Trust is fully committed to treating all employees fairly and through our policies and procedures we:

- ensure equality of opportunity
- are transparent in our recruitment processes
- ensure all pay decisions have regard to fairness and equity
- enable all staff to develop through equitable working practices, objective assessment and performance management

All our teaching posts are aligned to nationally agreed pay scales and support posts are currently aligned to Surrey Pay scales.

Key management actions that will assist in continuing to improve our gender pay gap include:

- On-going analysis of pay and pay progression data across the Trust to ensure consistency of approach and application
- Benchmarking our pay for roles against the regional average and harmonise pay across the Trust based on role evaluation
- Continue to provide flexible working arrangements that are 'family friendly' and help retain experienced staff
- We will review our Continuous Professional Development (CPD) opportunities to ensure they are accessible by all staff, irrespective of working patterns

We believe these actions will assist in reducing the gender pay gap differential for the Trust, which enable staff to continue to progress their careers whilst providing family friendly flexible working.

I confirm that the above information has been prepared from the Trusts payroll data as of 31st March 2021 and fairly represents the Gender Pay Gap information for the Trust.

Signed

Miss R. Plaskitt

CEO, Tandridge Learning Trust
