Your greatest overall success:

Your greatest success was improving the Bio-diversity of the school grounds, which has empowered pupils to become active Eco-leaders and will create a lasting positive impact on local Eco-systems. Well done!

We also loved...

- We loved how your school's pupils enthusiastically worked alongside parent volunteers to transform the pond area, developing better habitats for nature and setting up long-term science and nature zones—this will have a lasting impact on biodiversity and help foster environmental stewardship in the community.
- We were inspired by the creative dead-hedging and path boundaries your pupils constructed, enabling exploration while safeguarding natural growth, which will allow both wildlife and learning to flourish hand in hand for years to come.
- It was fantastic how you involved every pupil in planting hedges and creating habitat spaces like the Hedgehog zone and Bug hotels, encouraging a deep sense of Eco-responsibility and teamwork that will nurture respect for wildlife across your whole school.
- We enjoyed finding out about your regular Litter-picking activities and how you engaged even the youngest pupils, as well as your innovative approach to waste reduction through Surrey's re-think waste and the introduction of battery and clothing recycle bins—these actions will reduce environmental impact and inspire lifelong Eco-habits.
- We loved your commitment to energy conservation by introducing energy monitors and empowering class monitors to actively manage resources, which will reinforce positive Eco-behaviours and help shape a culture of sustainability within your school community.
- We were inspired by how outdoor learning and curriculum links, from noise fieldwork to plant identification, have created meaningful Eco-connections for pupils, profoundly deepening their environmental understanding and equipping them to make positive change now and in the future. Great effort!
